Section II- School Improvement Plan Assurances

STATEMENT OF ASSURANCES:

Our signatures below serve as the assurance that these steps took place during the development, discussion, and approval of our 2022-2023 school improvement plan.

The school improvement plan submitted for approval to the CCS Board of Education has been developed in accordance with the GA. Department of Educations guidelines and applicable state laws. In the development of this plan, be assured that:

- □ representatives of all grade levels and job classifications have been selected to serve on the school improvement team.
- □ the plan has been shared and feedback requested from the local school governance teams.
- notice of time, date, and location of school improvement team meetings was posted according to public meeting guidelines;
- □ all components of the FY 2022-23 Title I Program Plan Checklist have been met.

This school improvement plan represents goals and strategies for addressing improvement of student performance and includes components that focus on: an inviting and nurturing school climate; a safe learning environment; rigorous curriculum; relevant instruction; preparing students to be competitive locally and globally; recruitment and retention of quality staff; training for highly qualified professionals; internal and external communications; partnerships with parents; partnerships with the school community; physical and financial resources; and people and time resources.

Section III- District Vision and Mission

| | District Vision |
|--|--|
| | Building Legacies - One Student at a Time |
| | District Mission |
| We inspire | e all students to build the skills and confidence to find their passions and achieve their goals. |
| | District Core Values |
| COMPASSION: We must exhibit compassion | n as we build relationships based on trust and mutual respect. |
| - | s, teachers, and the community to support student learning. We firmly believe students will learn best when engaged with the ested in student learning- ensuring that we are all achieving at the highest level. |
| | ate a learning environment in which all of our diverse learners can achieve their highest potential. We believe that all students have e encourage them to find their passions and achieve their goals. |
| | nt is at the core of all student success. We know students learn best when they participate in a student-centered, standards-based ect-based learning. Our innovative staff strives to create a dynamic, engaging learning environment for all students. |
| | s must hold the highest expectations for their own achievement and believe in the motivating power of hope combined with ulum, instruction, and assessments as an accountability tool for continuous learning. We are committed to providing all students with ieve success for career, college, and life. |
| | o a vision of shared leadership that is collaborative and courageous. The district is led by a team of highly qualified partners who bute to the decision-making process. We look forward to the momentum that occurs when the hopes and dreams of the community educators. |

True Accountability

Cartersville is one of eleven school districts in Georigia that have spearheaded the movement to expand the existing statewide accountability system to one that is an educator-led, evidence-based, student-centric, community-based accountability system that moves far beyond test scores and A-F rankings. This system is called True Accountability. True Accountability provides an accurate, holistic performance measure and a thorough accounting to the students, families, and communities for whom educators and schools exist. True Accountability involves seven pillars made up of 27 different elements that must be evaluated in order to assess the effectiveness of any school. All CCSs are required to plan and continuously monitor all 27 elements of the True Accountability system.

7 Pillars of True Accountability

- 1- Student Achievement
- 2- Student Readiness
- 3- Engaged, Well-Rounded Students
- 4- Community Engagement and Partnerships
- 5- Professional Learning/Quality Staff
- 6- Systems and Operations
- 7- Safety and Well-Being

Key questions have been designed for the seven pillars and should be used to guide the school improvement team. Planning for the 20-21 school year will include the alignment of the Seven pillars and 27 elements and integrated into the building school improvement plan.

All schools will track their progress on the 27 elements using the provided TAGS tracking/signaling spreadsheet. Schools will report quarterly progress on all elements. Building leadership teams will host on-site quarterly update meetings for district leadership.

Section IV- Overview of School Performance Data

Student Achievement Data Collected

- o Georgia Milestones proficiency levels
- Georgia Milestones subgroup performance
- CCRPI scores (content mastery, progress, readiness, closing gaps)
- 2021-22 MAP scores (fall, winter, spring)
- Lexile/RIT performance (students reading on grade level)
- o Intervention data
- Data provided by various software programs

Summarize the student achievement trends and patterns. What are the important trends and patterns that will support the identification of student, teacher, and leader needs?

In general, there are upward trends with our general population meeting or exceeding projected growth on the MAP assessment in all content areas. Growth was strongest in 3rd and 4th grade math, as well as 3rd grade Reading for both MAP and GMAS assessments. There was also a significant increase in our Black subgroup population in math, although additional growth to close the gap is still needed. Gains in math were much larger overall compared to ELA on GMAS specifically, so plans for the 22-23 school year include a stronger focus on ELA.

Demographic Data Collected

- o Enrollment
- Race/Ethnicity
- \circ Gender
- \circ Gifted
- Remedial/EIP
- o ESE
- o EL
- o **504**
- Mobility rates
- Free/Reduced lunch
- \circ Homeless

Summarize the demographic trends and patterns. What are the important trends and patterns that will support the identification of student, teacher, and leader needs?

Overall enrollment remained steady during the 2021-2022 school year, including subgroup enrollment. At the elementary level, the number of virtual students continues to decrease with only 5 students during 21-22 year. The number of students receiving special education services continues to climb.

School Climate Data Collected

- o Climate rating
- o Climate indicator ratings
- Georgia Health Survey Results (student, personnel, parent)
- Student attendance data
- o Teacher attendance data
- Discipline data (Ed Handbook)
- o PBIS data
- $\circ \quad \text{Staff retention} \\$

Summarize school performance trends and patterns. What are the important trends and patterns that will support the identification of student, teacher, and leader needs?

Teacher and student attendance data were both affected by Covid during the 2021-2022 school year. However, student discipline data was overall much lower. Changes in schedule structure could impact behaviors as 4th and 5th grade classes are not departmentalized.

What parts of this data catch your attention?

3rd grade growth as evidence through MAP was substantial; although 5th grade did not meet any of their MAP projected growth targets last year, they did meet most of their targets this year; 5th grade MAP data aligned with GMAS data, where only approximately 35% of students were proficient or higher.

What does the data tell us? What does the data NOT tell us?

We have a lot of work to do. We need to look vertically as to why our 3rd grade students do not maintain expected growth as they move up to grades 4 and 5. The data does not tell us the impact Covid had on students social and emotional state to be ready for learning. The data also does not tell us gaps in specific skills within each academic domain. There is also not a way for us to gauge the instructional impact Covid precautions had on students' academic pursuits in the classroom.

What good news is there to celebrate?

3rd grade students overall showed growth in all three tested areas in MAP – Reading, Math, and Language. Student discipline data was also significantly lower during the 2021-2022 school year. Another big win is the cohort growth in math from last year's 3rd grade GMAS proficient+distinguished to their 4th grade GMAS proficient+distinguished. There was a 16% increase with the 3rd-4th cohort in math!

What are the issues are suggested by the data?

** focuses on the instructional core, is directly observable, is actionable, and connects to a broader strategy of improvement

There is an evident need for additional Tier 1 instructional support in both reading and math in all grade levels, but especially 5th grade. In addition more work, time, and training is needed to better use the data we have available to anticipate results and remediate where needed prior to GMAS testing each spring.

What are our key conclusions? What recommendations does the team have for addressing the issues?

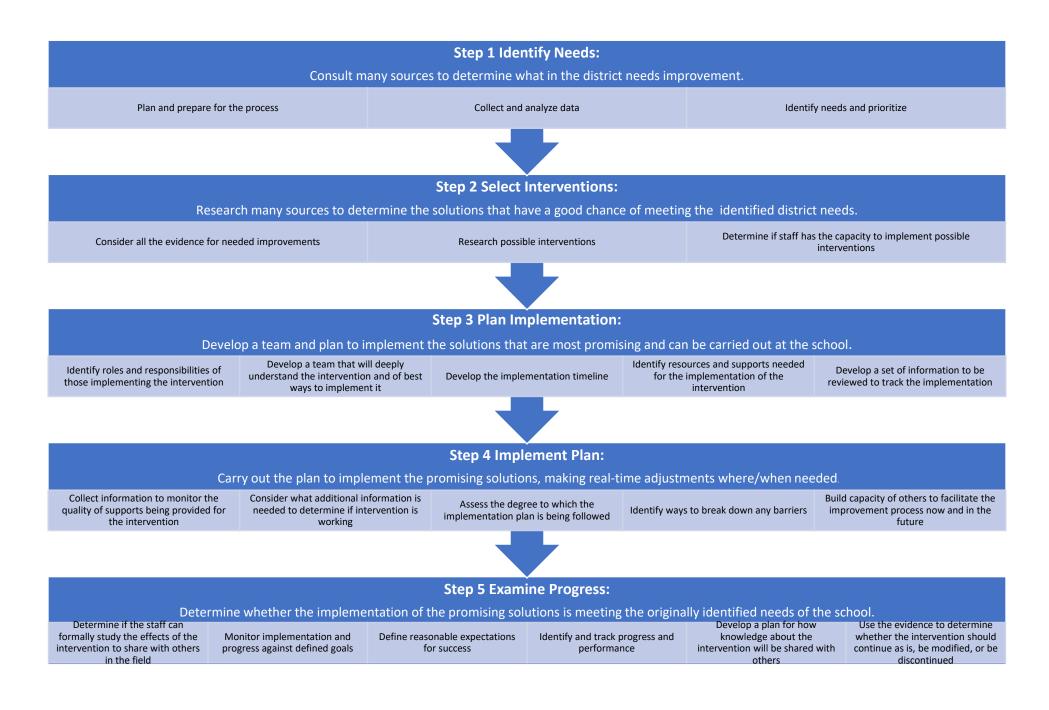

The first recommendation is a strong focus on Tier 1 instruction in Reading/ELA while learning a new curriculum to meet individual student needs. The 2nd recommendation is continued support with Tier 1 instruction with our new Bridges math curriculum, while also diving deeper into students Tier 2 and 3 math interventions. The team also recommended we monitor our implementation of Capturing Kids Hearts and how basic classroom behaviors are affected by its implementation. And finally the team recommended we begin discussions involving common grading practices aligned to prioritized outcomes which could include common summative and formative assessments and a deeper understanding of the PLC/PLT community.

Section VI- School Improvement Plan Goals, Strategies, and Action Steps

Cartersville Elementary School embraces a process of Continuous Improvement Planning. Stakeholder groups meet regularly to review and revise system and school improvement plans to address the unique academic needs of all students. Vast amounts of data, both quantitative and qualitative, are analyzed to formulate the School Improvement Plan. The administrators, teachers, paraprofessionals through School Leadership team and, parents and community through Local School Governance Teams) examine Climate Surveys, Georgia Milestones, CCRPI, SLDS, NWEA MAP universal screening data, ACCESS data, progress monitoring data, formative and summative data, and other sources. All of the above data is disaggregated by subgroup (e.g., Race, ethnicity gender, sped ELL). Data is analyzed to determine strengths and weaknesses and SMART goals are developed and revised as needed based on feedback. A monthly and quarterly review of this plan and progress is conducted to evaluate its effectiveness. The School Improvement Plan is available to all stakeholders on the school website and at the annual Title I meeting.

Effective goals assist schools in attaining collective agreement about what work needs to occur for improvement to take place. Goals should focus and prioritize the efforts and resources of the district/school to the identified needs and create a focus for improvement. Setting goals should be a strategic process that aligns the SMART Goals within one of the seven pillars of **True Accountability: Student Achievement, Student Readiness, Engaged, Well-Rounded Students, Community Engagement and Partnerships, Professional Learning and Quality Staff, Systems And Operations, and Safety and Well Being.**

All schools can set building goals based on the specific needs of their learning community. Schools will track all elements of the seven Pillars of the True Accountability System and report progress monthly to the Director of Strategic Initiatives and School Improvement. District leadership will conduct building visits quarterly, and building leadership teams will present SIP goals and progress.

SMART Goal #1: Provide meaningful interventions to CES students who are not meeting and exceeding expectations on the Reading universal screener by the end of the 22-23 school year.

3rd **Grade** – 60% of students will meet or exceed their individual projected growth target between Fall and Spring on MAP testing by May 2023.

4th **Grade** – 55% of students will meet or exceed their individual projected growth target between Fall and Spring on MAP testing by May 2023.

5th Grade – 54% of students will meet or exceed their individual projected growth target between Fall and Spring on MAP testing by May 2023.

TAGS Area (Pillar & Element(s)): Student Achievement; Student Readiness; Professional Learning/Quality Staff; Engaged, Well-Rounded Students

| Georgia School Performance | Student Group(s) <i>(Include</i> | Actions/Strategies | Evaluation of Implem Student Learni | Project Lead | |
|--|-------------------------------------|---|--|--|--------------|
| Standard | subgroups) | | Artifacts | Evidence | |
| Professional Learning Standard 1: Aligns professional learning with needs identified through analysis of a variety of data Instruction Standard 4: Uses research-based instructional practices that positively impact student learning | Teachers, TSS, SSS | Teachers will meet consistently within community groups to gain professional learning designed to enhance Tier 1 reading instruction. (Tier 2 and 3 supports will be mostly completed through individual meeting with SSS.) | PL sign-in sheets and agendas | MAP data (Fall, Winter, Spring - All subgroups) Knowledge will be used to determine new Reading/ELA curriculum for 2022- 2023 | TSS and SSS |
| Curriculum Standard 3: Uses a process to review curriculum documents to ensure alignment to the intent and rigor of the standards and revises as needed | Teachers, TSS, SSS | Teachers will meet with TSS and SSS to review researched-based practices and strategies to promote effective reading instruction for students. | PL sign-in sheets and agendas | Evidence of implementation through TKES observations Increased independent reading time for students | TSS and SSS |
| Instruction Standard 5: Differentiates instruction to meet | ELL Teachers, ELL students | Continue to provide a language acquisition program for non-English | Program usage reports | Student ACCESS scores | ELL teachers |

| specific learning needs of students | | speaking students (not limited to, but including immigrant students) and their families. | | | |
|--|--------------------|--|--|--|----------------|
| Leadership Standard 4: Uses processes to systematically analyze data to improve student achievement | Adminsitration | Administration will consistently monitor MAP data (Fall, Winter, Spring) with specific attention to student subgroups | MAP data reports | Adjust processes based on data as needed with professional learning | Administration |
| Professional Learning Standard 4: Uses multiple professional learning designs to support the various learning needs of the staff | Teachers | All teachers will be provided an opportunity to participate in ELL training through online modules available on the SLDS portal. In addition teachers will have access to a KSU ESOL professor for additional training and support. | Certificates of Completion; sign-in sheets from professional learning | TKES observations | Teachers |
| Family and Community Engagement Standard 5: Develops the capacity of families to use support strategies at home that will enhance academic achievement | Teachers, students | Teachers will create, train, and share with parents a tool to be used at home to support reading instrction in the classroom. | Reading tool (once designed) [different by grade level] | MAP data, parent feedback | Teachers |
| School Culture Standard 2: Establishes a culture of trust and respect that promotes positive interactions and a sense of community | Teachers, students | Continue ongoing implementation of Capturing Kids Hearts in all classrooms | Social Contracts in classrooms | CKH signals and cues being used during classroom observations | Administration |
| Family and Community Engagement Standard 4: Communicates academic expectations and current student achievement status to families | Teachers | Host a minimum of two parent nights – one per semester – to share student progress including MAP progress in both Reading and Math throughout the year. | MAP reports Parent sign-in sheets | Parent communication | Administration |

Monitoring Actions of Implementation- Monthly Impact Points:

MAP data will be monitored following each administration (Fall, Winter, Spring). Professional learning monitoring will be ongoing through weekly PLC meetings with the TSS and individual MTSS meetings with SSS.

Estimated Cost, Funding Source and/or Resources:

Cost of Language Acquisition Program – approximately. No intial costs, unless data suggests a need for additional resources or outside professional development.

SMART Goal #2: Provide meaningful interventions to CES students who are not meeting and exceeding expectations on the Math universal screener by the end of the 22-23 school year.

3rd Grade – 69% of students will meet or exceed their individual projected growth target between Fall and Spring on MAP testing by May 2023.

4th **Grade** – 68% of students will meet or exceed their individual projected growth target between Fall and Spring on MAP testing by May 2023.

5th Grade – 52% of students will meet or exceed their individual projected growth target between Fall and Spring on MAP testing by May 2023.

TAGS Area (Pillar & Element(s)): Student Achievement; Student Readiness; Professional Learning/Quality Staff; Engaged, Well-Rounded Students

| Georgia School Performance | Student Group(s) <i>(Include</i> | Actions/Strategies | • | nentation & Impact on ing (Sub Groups) | Project Lead |
|--|-------------------------------------|---|---------------------------------|---|-------------------------------|
| Standard | subgroups) | | Artifacts | Evidence | |
| Professional Learning Standard 1: Aligns professional learning with needs identified through analysis of a variety of data Instruction Standard 4: Uses research-based instructional practices that positively impact student learning | Teachers, TSS, SSS | Teachers will meet consistently within community groups to gain professional learning designed to enhance Tier 1 AND Tier 2 math instruction. Specific focus will be given to the black student population and their MAP math scores. | PL sign-in sheets and agendas | MAP data (Fall, Winter, Spring - All subgroups) Tier 2 and 3 MTSS math data | TSS and SSS |
| Curriculum Standard 3: Uses a process to review curriculum documents to ensure | Teachers, TSS, SSS | Teachers will meet with TSS and SSS to review our implementation of our new math curriculum as we move into year 3 | Meeting agendas Lesson Plans | Evidence of implementation through TKES | TSS and SSS Administration |
| alignment to the intent and rigor of the standards and revises as needed | | with Bridges. | | observations | |
| Leadership Standard 4: Uses processes to systematically analyze data to improve student achievement | Adminsitration | Administration will consistently monitor MAP data (Fall, Winter, Spring) with specific attention to student subgroups – specifically our Black subgroup (Equity plan) as well as our Hispanic subgroup | MAP data reports | Adjust processes based on data as needed with professional learning | Administration |

| Family and Community Engagement Standard 5: Develops the capacity of families to use support strategies at home that will enhance academic achievement | Teachers, students | Teachers will create, train, and share with parents a tool to be used at home to support math instrction in the classroom. | Math tool (once designed) [different by grade level] | MAP data, parent feedback | Teachers |
|--|--------------------|--|---|--|----------------|
| School Culture Standard 2: Establishes a culture of trust and respect that promotes positive interactions and a sense of community | Teachers, students | Continue ongoing implementation of Capturing Kids Hearts in all classrooms | Social Contracts in classrooms | CKH signals and cues being used during classroom observations | Administration |
| Family and Community Engagement Standard 4: Communicates academic expectations and current student achievement status to families | Teachers | Host a minimum of two parent nights – one per semester – to share student progress including MAP progress in both Reading and Math throughout the year. | MAP reports | Parent communication | Teachers |

Monitoring Actions of Implementation- Monthly Impact Points:

MAP data will be monitored following each administration (Fall, Winter, Spring). Professional learning monitoring will be ongoing through weekly PLC meetings with the TSS and individual MTSS meetings with SSS.

Estimated Cost, Funding Source and/or Resources:

No intial costs, unless data suggests a need for additional resources or outside professional development.

SMART Goal #3: CES will cultivate a STEAM (Science, Technology, Engineering, Arts, Math) focus in all classrooms while also engaging stakeholders - parents/guardians, community partnerships, CES and CCS staff members and CES students.

TAGS Area (Pillar & Element(s)): Student Achievement; Professional Learning/Quality Staff; Engaged, Well-Rounded Students; Community Engagement and Partnerships

| Georgia School Performance | Student Group(s) <i>(Include</i> | Actions/Strategies | Evaluation of Implen Student Learni | Project Lead | |
|--|--|--|--|---|---|
| Standard | subgroups) | | Artifacts | Evidence | |
| Professional Learning Standard 1: Aligns professional learning with needs identified through analysis of a variety of data Instruction Standard 4: Uses research-based instructional practices that positively impact student learning | Teachers | Teachers will meet explore STEAM components through the direction of the school's STEAM team | PL sign-in sheets and agendas; weekly updates "STEAM Scene" | Teachers can articulate a basic, entry-level understand of STEAM | STEAM Team |
| Leadership Standard 4: Uses processes to systematically analyze data to improve student achievement | Adminsitration | Administration will collaborate with CCS leadership to establish vertical alignment with STEAM process and meet certification goals | STEAM goal completion as outlined in STEAM notebook | Completion of Level 1 tasks | Administration |
| Family and Community Engagement Standard 5: Develops the capacity of families to use support strategies at home that will enhance academic achievement | Teachers, STEAM Team; community partnerships | Teachers will create and share STEAM based activities to be used at fall and spring family nights | Pictures, student activity samples from fall and spring family nights | Students/Parents can articulate an understanding of STEAM | Teachers/Students/ Parents/Community |

Monitoring Actions of Implementation- Monthly Impact Points:

STEAM team meetings will be held monthly to explore the process and roll-out at Cartersville Elementary School. The STEAM Level 1 task list will be used to gauge progress towards certification and implementation.

Estimated Cost, Funding Source and/or Resources:

No intial costs, unless data suggests a need for additional resources or outside professional development.

Revised Date: August 25, 2022

CES 22-23 Proposed Professional Learning Plan

School Beliefs

LEARNING: (development in progress)

LITERACY: At Cartersville Elementary School, we believe in the science of reading and its five pillars are the foundation for effective literacy instruction. We want every child to read rich, diverse grade level texts where they can see themselves as well as the world around them. We recognize that reading development occurs on a fluid continuum that is not necessarily bound by age or grade level. Although our students have diverse needs, backgrounds, and abilities, we believe reading is a civil right. We believe literacy should be woven into every part of our school building and day. We believe our families are part of and can contribute to this journey with knowledge and support from us. It is our mission to make each child a reader and writer. Our students, our families, our community and world depend on it. (est. 7/20/21 by Literacy Design Team)

MATHEMATICS: (development in progress)

PLC/PLT Design & Purpose

Explanatory Notes

¹User norms are based on the group of students who have taken the test in the selected subject and course. These results are not comparable to results based on nationally representative norms.

* Summaries for groups of fewer than 10 students are not shown, as the sample size may be too small for acceptable statistical reliability.

** Calculations not provided because students have no MAP results in at least one of the terms. The Growth Count is zero.

‡Growth Count provided reflects students with MAP results in both the Start and End terms. Observed Growth calculation is based on that student data.

Explanatory Notes

¹User norms are based on the group of students who have taken the test in the selected subject and course. These results are not comparable to results based on nationally representative norms.

* Summaries for groups of fewer than 10 students are not shown, as the sample size may be too small for acceptable statistical reliability.

** Calculations not provided because students have no MAP results in at least one of the terms. The Growth Count is zero.

‡Growth Count provided reflects students with MAP results in both the Start and End terms. Observed Growth calculation is based on that student data.
