INTEGER GOLF

1. Using two dice, you will roll **BOTH** twice. The first roll will represent your positive number. The second roll will represent your negative number.

2. You advance to the next hole, once the condition has been met.

3. Low score wins.

Hole	Name	Name	Condition
1			The difference is positive
2			The sum is -2
3			The product is odd
4			The sum is greater than the difference
5			The sum is divisible by 3
6			The difference is even
